Pacific Coast Items.

The scarlatina is abroad in Vallejo.
Fires are raging in the foot-hills
outside Calistoga.

Small-pox has abated in the moun-
tains east of Gilroy.

The assessment-roll of Nevada
county foots it to \$8,630,240.

The assessment-roll of Santa Clara
county reaches \$31,129,272.

There are from one hundred and
fifty to two hundred visitors staying
at the hot springs near Gilroy.

The Santa Cruz Narrow-gauge Rail-
road has purchased its first locomotive.

The citizens of Del Norte county are
circulating a petition for increased
manufac-

ture. W. C. Ralston has determined to
rebuild his Belmont barn, burned down
a few days ago.

A lady named Mrs. Inas was burned
to death at Nevada City, last week,
through kerosene.

Plumas is shortly to have the ad-
vantage of telegraph communication
with the outer world.

A miner's cabin at Mokelumne Hill,
occupied by two men named Gwin,
was burned on Tuesday.

Mrs. D. J. Wiley, who was injured a
few days ago by the Foss stage acci-
dental, died Saturday evening.

The Napa Valley Mining Company pro-
poses to alter its name to the Napa
& Sonoma Mining Com. Co.

The Santa Clara College has re-
ceived some coffee-seeds, which they
intend to plant as an experiment.

Fifteen hundred eucalyptus trees
have been planted in and around Santa
Cruz within the past year.

Joe Billin, of Colusa county, recent-
ly threshed 255 sacks of wheat from
twelve acres of land—over fifty bush-
els per acre.

San Francisco capitalists are pro-
jecting a salmon fishery and canning
establishment at the mouth of Smith
river.

There was born to Judge O. S. Ma-
son and wife, of Colusa, on the 9th in-
stant, a son, being only the seventeenth
child!

The Colusa Sun is informed that
Wells, Fargo & Co. will put their ex-
press, on the coming week, to Bartlett
and Munchville.

Mary Ann Lyon, a girl about fifteen
years of age, committed suicide by
taking poison, about three miles from
Auburn, on Tuesday last.

There never was a finer prospect for
grapes in Auburn than the present sea-
son. The vines are loaded with bunches
of unusual size.

The smelting works at Truckee are
running day and night, and turning
out from 4,000 to 7,000 pounds of bullion
every twenty-four hours.

Robert Brieter, an obstreperous sol-
dier of the Eleventh United States In-
fantry, is in the Ukiah Jail for two
hundred and five days for resisting
civil authority.

The assessment roll for the current
year for Sonoma county foots up to
\$16,700,825, and further assessments
will run the sum to upwards of \$17,-
000,000.

The citizens of the lower counties are
much dissatisfied with the recent
large increase of rates for freight and
passenger travel by the southern coast
steamers.

An immense fruit crop is expected in
Tuolumne county this season. The
farmers in many places have to shake
off the fruit to prevent their trees
breaking down.

George Hoag, of the Glenn Ranch,
is running a thresher with a fifty-two-
inch cylinder at the rate of 216 sacks
per hour, or a little more than 5,000
bushels per day.

A young lady named Louise Trier,
aged sixteen years, was burned to
death at Modesto on the 9th inst., by
her dress coming in contact with a fire
in a kitchen stove.

The San Mateo Gazette says: "There
are 140 odd mortgages on record in this
county, amounting to nearly \$350,000.
The largest is for a trifle less than
\$15,000."

The Colusa Independent says that
Hon. John Boggs on Wednesday last
disposed of his entire stock of grain to
Wm. Billings, which will amount to
ten or twelve thousand tons.

Doctor Webber has established a tri-
weekly stage line between Truckee
and Webber Lake. Stage for the lake
will leave Truckee on Tuesdays, Thurs-
days and Saturdays.

The Steam Engineering Department at
Mare Island Navy Yard has re-
ceived advices from Washington that
it has been allowed \$20,000 a month
for three months.

A little girl four years of age, named
Katie Blake, was burned to death in
Gilroy on Monday last, catching a light
through some fire-crackers which were
exploded in the street.

On the Fourth of July some boys in
firing their fire-crackers set fire to and
completely burned a stack of hay con-

taining about ten tons, the property of
Mrs. Mills, a widow lady residing at
St. Helena.

On Sunday last the grass in the Mil-
itary Reservation at Benicia took fire,
and swept with all the force of the
wind towards the barracks. It was
extinguished just before reaching the
magazine.

By consent of the Controller of the
Currency, the name of the Farmers'
National Gold Bank and Trust Com-
pany of San Francisco has been
changed to simply Farmers' National
Gold Bank.

At a special meeting of the Directors
of the San Joaquin Valley District
Agricultural Society, held in the office
of the Secretary, the premium list for
the next Fair was completed in all its
details.

Parties in Klamath county opposed
to the disorganization of Klamath
have, corresponded with John
B. Felton of San Francisco with refer-
ence to the subject of contesting the
Siskiyou election.

Mr. Pierce, supposed to be mortally
wounded by Sirley, some time ago, while
defending his daughter at his
residence, below Bangor, Butte
county, is reported to be convalescent.

J. H. Ashley has handled the Castro-
ville Argus a bunch of "White Aus-
tralian" wheat, some of whose heads
measure seven inches in length, and
all are very full and heavy. The
berries are very large, plump and
bright.

Blunt reports the cutting of 120
acres of barley, on the farm of John
Feldhaus, near Snelling, Merced
county, in three days, with one 12-
foot header. The grain stood well,
and the ground yielded about twenty
bushels per acre.

A man named Rudolph Romshoefel,
a German, aged fifty years, was
drowned while bathing in Stockton
channel, Reed's Landing, Friday fore-
noon. Deceased was a soldier in Stev-
enson's Regiment, and came to Cal-
ifornia in 1847.

Says the Truckee Republican of
Saturday: "The gates at the Von
Schmidt dam at Tahoe City were
opened yesterday, and the Truckee
river, in consequence thereof, is
booming." The pike has not reached
the high-water mark yet by twenty
inches."

At 3 o'clock on Thursday afternoon
after a fire broke out at Ellis, San
Joaquin county, in a building belong-
ing to E. B. Squires, and occupied as a
Chinese washhouse. The building
was quickly consumed, and a Chinaman
employed therein was fatally
burned.

Plumas is shortly to have the ad-
vantage of telegraph communication
with the outer world.

A miner's cabin at Mokelumne Hill,
occupied by two men named Gwin,
was burned on Tuesday.

Mrs. D. J. Wiley, who was injured a
few days ago by the Foss stage acci-
dential, died Saturday evening.

The Napa Valley Mining Company pro-
poses to alter its name to the Napa
& Sonoma Mining Com. Co.

The Santa Clara College has re-
ceived some coffee-seeds, which they
intend to plant as an experiment.

Fifteen hundred eucalyptus trees
have been planted in and around Santa
Cruz within the past year.

Joe Billin, of Colusa county, recent-
ly threshed 255 sacks of wheat from
twelve acres of land—over fifty bush-
els per acre.

CITY AND COUNTY OFFICIAL PAPER.

THURSDAY.....JULY 16, 1874.

General Apathy Around.

If talk would build railroads Los Angeles would be the point from which would diverge all the railroads in the world. If home-made eloquence could charm the coin from other people's pockets we should become the money market of civilization. If the majority of our business men could only pay up their stock with advice at their own estimate of its value, while others met the assessment with coin, Los Angeles would number several liberal Dick's who give away everything early in the morning and those who arrive first don't get a cent. With two or three exceptions the gentlemen who, a few weeks ago, gave so liberally in promises to the Los Angeles and Independence Railroad have disappeared from our gaze. They do not say railroad once now where they shouted railroad all the time a month since. We shall never build Los Angeles to the dimensions of a great city at this rate. We shall never secure for her the trade of the vast mining region lying to the east of us. We shall never develop the resources nor avail ourselves of the natural advantages of this great country, unless we arouse ourselves to action and something besides talk. Senator JOHN P. JONES, of Nevada, has become an extensive owner in the rich lodes of Panamint, and he is expected down here in a few weeks to arrange for the transportation of bullion and freight. If in place of finding the business men of Los Angeles standing idly by, like so many WILKINS MICAWBERS, waiting for something to turn up, Mr. JONES finds them actively at work on their new railroad scheme, he could not avoid the conclusion that there is something in this community. If he found us with two or three hundred thousand dollars stock subscribed to the Los Angeles and Independence Railroad, and evincing a determination to put it through, he would, no doubt, take a large amount of stock himself in road which he will see at once will be of such immense benefit to him in shipping to and from his mines. It must be admitted that the aspect of our local enterprise does not now invite the co-operation of outside men or capital. If we would receive help, we must show a disposition to help ourselves.

LOCAL OPTION has suffered another defeat at San Leandro, Alameda county, last Saturday, license won by a good solid majority. Both sides were in the field in full force, and the battle was fiercely fought from the opening to the closing of the polls. SALLIE HART was there in all her glory, and made her influence tell, but the fates were against her. No rude acts were indulged in and the best of order prevailed all day.

ANOTHER destructive fire has visited Chicago. The dispatches fix the loss at eight million dollars, which is probably double the actual amount; but four million dollars worth of property is a great deal to lose in a city that has been so terribly scathed by fire as Chicago. Among the buildings burned was the Post-office.

ARIZONA.

A Good Account from the Clifton Copper Mine.

TUCSON, July 13.—Charles Lesinsky, of the Clifton copper mines, arrived in town yesterday. He reports that work is being rapidly pushed ahead at the mine preparatory to the establishment of reduction works. The company has heretofore been shipping ore to Baltimore, but owing to the cost of transportation they have decided to establish works at the mine. One-half of ore went thirty-three percent copper, and a later shipment forty-two percent. They are now engaged in building roads, etc., and expect to have everything in good working order in two months.

ANOther Destructive Blaze. CHICAGO, July 15.—James E. Roberts, of Ohio, is appointed to the Camp Apache Agency.

HON. John A. Bush, of Phoenix, arrived here this morning. He is canvassing the city preparatory to the coming Congressional election.

COMPANIES D and E of the Twenty-third Infantry, have Camp Lowell to-morrow at 4 o'clock for Fort Yuma.

Mr. R. H. Howe, who opened the Tucson Military Telegraph Office last December, and who has since been in charge of it, was relieved on the 10th instant by Mr. C. W. Gearhart, the former operator at Maricopa Wells.

Mr. Howe has served the citizens of Tucson very acceptably, and they are sorry to see him leave. The *Advertiser* gives him a very flattering send-off.

ANOther Destructive Blaze. CHICAGO, July 15.—A special gives an account of a most disastrous fire at Iowa Falls, yesterday, which started about 3 p. m. and destroyed the whole business portion of the town, inflicting a loss of \$100,000. A gale of wind furthered the progress of the fire. Forty-five buildings were burned. The fire was got under control about sunset.

ASecond Fire in Chicago. CHICAGO, July 15.—A second fire broke out here to-day, on Milwaukee Avenue. It burned only a few buildings before it was extinguished.

The Daily Topic.

It is the correct thing to have a few words to say each day about BEECHER and TILTON and Mrs. TILTON. Almost every one of our exchanges do it, and we do not find a sufficient reason why we should omit a subject which is very much alive and at the same time highly interesting to all classes of the community. Nothing new has developed, and those who have paid some attention to the history of church committee investigations will be greatly astonished if the Plymouth Church Committee should develop anything new in the case now in hand. Mrs. TILTON who ought to know as much about the truth or falsity of the scandal as any one, says there is nothing in it; that when her husband went off Woodhull and avowed himself a practical free lover, she consulted with BEECHER and he advised her to leave THEODORE for time or until he should evince feelings of regret and show a disposition to return to his lawful wife. For this bit of intermeddling, TILTON has vowed vengeance, and to obtain it has sacrificed his own wife. This is Mrs. TILTON's latest version. It is a pretty little story, and we are astonished that it was not published long ago. Some people may turn up their noses at it, and give utterance to such coarse, incredulous expressions as "too thin," "don't hold water," and the like, but these same people will turn up their noses at almost anything. For our part, we rather like this last attempt of Mrs. TILTON in the narrative line. It is certainly an improvement on her previous efforts.

Rough estimates of the loss are \$800,000. Considering the area burned over, the loss to insurance companies will be comparatively small. The Postoffice and First Baptist Church, on Wabash Avenue, were among the finest buildings destroyed. The mails were saved from the Postoffice. The Gardiner House, St. James Hotel, Continental Hotel and Adelphi Theatre were destroyed.

Afire in Oshkosh, Wisconsin, last night burned over a space of a half a mile in length, from Main street to the lake. Loss, \$1,500,000.

What Mr. Jewett Says.

NEW YORK, July 15.—Mr. Jewett says that his acceptance of the Presidency of the Erie Railway was decided on favorably on the report of English experts. He did not doubt the report would correct many errors, which he should strive to retrieve in the future management. He hoped his administration would prove satisfactory to stockholders, and his reputation as a railroad man would not suffer therefore. He would make himself thoroughly cognizant of all the workings of the road.

What Mrs. Tilton Says.

NEW YORK, July 15.—In the Beecher-Tilton investigation, Mrs. Tilton gave evidence contradictory of Tilton's version in her testimony before the Committee. Her appearance before the Committee was effected by personal friends of Beecher's. It is positively stated that Mr. Beecher is making overtures to restrain Tilton from his determined course. Tilton shows no signs of yielding.

Apache Agency.

CHICAGO, July 15.—A special gives an account of a most disastrous fire at Iowa Falls, yesterday, which started about 3 p. m. and destroyed the whole business portion of the town, inflicting a loss of \$100,000. A gale of wind furthered the progress of the fire. Forty-five buildings were burned. The fire was got under control about sunset.

ASecond Fire in Chicago.

CHICAGO, July 15.—A second fire broke out here to-day, on Milwaukee Avenue. It burned only a few buildings before it was extinguished.

Latest Telegrams.

DETAILS OF THE CHICAGO FIRE.

LOSS ESTIMATED AT \$8,000,000.

WHAT MRS. TILTON SAYS.

Another Costly Blaze.

EASTERN.

Details of the Chicago Fire.

Chicago, July 15.—The exact limits of the fire are as follows.—On Clark street, where it originated, from near Twelfth street for about a block north; on Fourth Avenue, from near Taylor street to Harrison street; on Third Avenue, from near Peck Court to Harrison, on west side and one block further on east side; on State street from No. 509, near Yarmont Court, to No. 310, near Congress street, on west side, and to the corner of Van Buren on east side; on Wabash Avenue, from No. 942, near Peck Court, to No. 267, near the corner of Van Buren, on the west side, and to No. 294 on the east side. Michigan Avenue is burned about one block, lying mostly between Van Buren and Harrison streets.

At 10 o'clock the firemen had the flames under control, but they could not yet relax their efforts. The fire limits on the south are 518, State street, near Harrison; on Wabash Avenue, 475, south of Eldridge Court; on Third Avenue, 233, between Peck Court and 128. On the corner of Peck Court and Wabash Avenue is the only point in the southern portion where firemen are operating. The fire broke out in a paint manufacturing shop on the corner of Twelfth and Clark street, where workmen were mixing materials, which exploded and caused the conflagration. On the south the fire reached nearly to the Palmer House. The St. James was the last house to burn in the entire section.

rough estimates of the loss are \$800,000. Considering the area burned over, the loss to insurance companies will be comparatively small. The Postoffice and First Baptist Church, on Wabash Avenue, were among the finest buildings destroyed. The mails were saved from the Postoffice. The Gardiner House, St. James Hotel, Continental Hotel and Adelphi Theatre were destroyed.

Afire in Oshkosh, Wisconsin, last night burned over a space of a half a mile in length, from Main street to the lake. Loss, \$1,500,000.

What Mr. Jewett Says.

NEW YORK, July 15.—Mr. Jewett says that his acceptance of the Presidency of the Erie Railway was decided on favorably on the report of English experts. LOCAL BREVIETIES.

G. W. Morgan still has money to loan.

The Orizaba will sail for San Diego Saturday, July 18th.

The circus will be here to-morrow. Our young American are all expectation.

We are glad to learn that Dr. Stanley is improving somewhat from his serio illness.

The Los Angeles sails for San Diego to-day. Passengers will leave by the 10 A. M. train. On Saturday the steamer will return and sail for San Francisco.

About forty-five members of Merrill Lodge, I. O. G. T., participated in the visit to the Gallatin Lodge on Tuesday evening. The party returned about 12 o'clock the same night, highly pleased with their trip.

A warrant was issued yesterday for the arrest of Charley Carson, on the complaint of cy von Sanerweld. Carson threatened to puncture the diaphragm of the complainant and allow the light of heaven to pass through him; hence the difficulty.

The case of the People vs. Willy McNear, on a charge of committing rape, was before the County Court yesterday. The case was tried with closed doors, and at 12 o'clock last night the jury returned with a verdict of assault with intent to commit rape.

Complaint was entered before Justice Gray, yesterday, against one Belmar for disturbing the peace by shooting a dog. The aggrieved party was Maria Del Carmen M. D. Valenzuela (the rest of the name is not given). Defendant plead guilty, and was fined costs.

A team drawing a wagon in which a man and family were seated, ran away yesterday on the corner of Aliso and Alameda streets. A small child was thrown out of the wagon, but fortunately sustained no injury. The team was stopped by the driver in a short time without doing any material damage.

The steamer Senator sailed from San Francisco yesterday morning, with the following passengers for Wilmington: J. Engle, Mr. W. Wright, Mr. G. Dorrian, Mrs. Osterman, Mr. Fortner, C. W. Coburn, Hoser Stanner, Mrs. Fox and son, Herman Newman, Wm. L. Tyler, C. Webb, Mrs. Kleiber, J. DeWitt, L. Lawson.

Mrs. Backman, while descending the stairway at Mr. Kimball's new residence yesterday, met with what might have proved a most serious accident. Some six or seven steps from the floor the heel of her shoe struck the edge of a stair, and threw her headlong upon the floor, the entire weight of her body falling upon her face. Dr. McKee was hastily summoned, but fortunately found no bones broken. A badly bruised face and a terrible shock to the entire system will require extra care on her part and good nursing for a few days, when she will be all right again.

The Express says: "Downey City, the name of the little town that has grown up at the terminus of the Anaheim Branch of the railroad, is quite a thrifty and improving little burg. There are some twenty houses grouped together on a fine site, including all classes of country business stores. The new Odd Fellows building is going up, and the walls are nearly completed. It will be a presentable structure when finished. The splendid and thickly-settled country which surrounds it insures it a permanent position as a good centre of trade. Nothing can be more picturesque or beautiful than the roads in that vicinity, passing between lines of locust, cottonwood and ash trees, completely shading them."

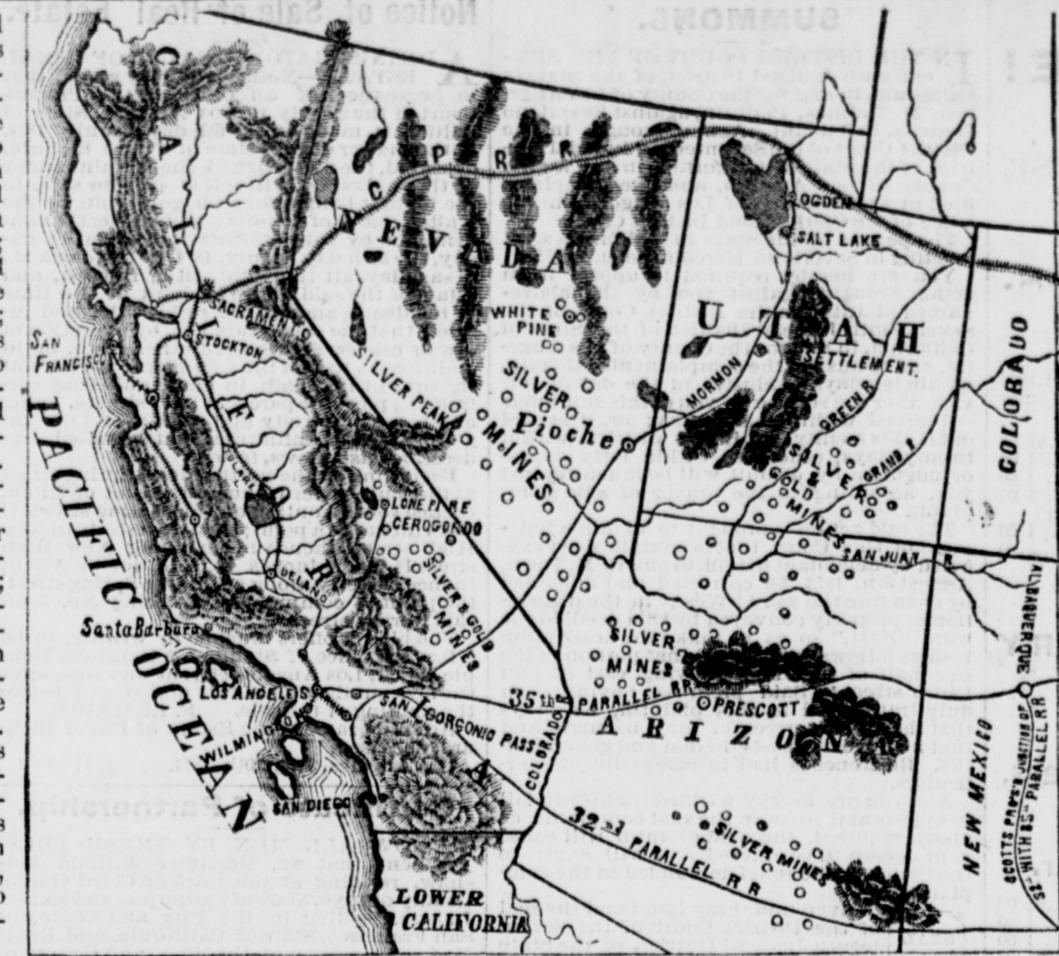

The Mutual Aid Association held a special meeting yesterday at the Secretary's office No. 41 Temple Block. A majority of the members were in attendance, either in person or by proxy. The amendments as proposed by the Board of Directors were adopted with but one dissenting vote. A meeting of the Board of Directors was also held, and a large number of applications for membership were acted upon. The members were well pleased with the management, and no association of the kind ever stood fair in public esteem than this one does to-day. The July number of the Mutual Aid will appear on Saturday. Those desiring to advertise should apply at once. The next meeting of the Board of Directors will be held on Tuesday, August 25th.

The Russian River Flag has the following item, which relates to Dr. T. H. Rose, an astute resident of Los Angeles, the designer of our High School building and really the father of our public school system. The Flag says: "Last Tuesday, at the residence of Dr. T. H. Rose, corner of Fifth and Haydon streets, we saw a rare and beautiful flower called the globe cactus. The bloom of the plant is commonly known by the name given above, from its growing in the form of a globe. We believe the globe cactus blooms but once a year, and the flower lives only a day. A stem a half or three-quarters of an inch in diameter shoots out eight or ten inches from the plant and terminates in a flower about the size and shape of a white lily, with two sets of creases and pinkish stripes, exquisitely shaded in various degrees of color. Besides many choice plants and flowers, Dr. Rose and wife are surrounded in their beautiful home by a great variety of evergreens and shade and ornamental trees of larger growth than those of any other residence in the city."

Professor Denton's Lecture.

The first of his series of lectures was delivered by Prof. Denton at Grange Hall last night. A fair audience was present, and throughout the discourse remained wrapt in interest. The Professor has a rather pleasing address, with a ready flow of language, and he had no trouble in fixing the attention of his hearers upon the subject in hand, and retaining it to the end of his lecture. The Professor's remarks were illustrated by charts hung about the room, illustrating the geological formation of the earth, the earliest animal creations, mastodons, etc., as well as a collection of mineral specimens. As a preface to his lecture, and in fact to the whole course, the Professor dwelt to some extent on the importance of the study of geology. We are in our physical construction from the earth, containing its elements in every part of our body. The history of man is wrapped up in the history of

MAP OF OUR BACK COUNTRY.

We have to dispose of our immense stock of Clothing, Dress Goods, etc., etc., to make room for a very extensive stock of Fall Goods, just purchased in New York, and en route for us. We have reduced the prices, and you will find it to your advantage to call at the

and Soda, 12¢ per pound; Cheese, 10c per pound; Coffee, 25c per pound; Tea, 15c per pound. All kinds of groceries at prices that are lower than ever was known before.

AT ONCE.

Important.

On Main street, under the Lafayette Hotel, before purchasing elsewhere.

PIPIFAX.

This remarkable curative herbal preparation is entirely unlike and greatly superior to any other recuperant ever discovered.

It strengthens the living vital nervous principle, and gives energy to the muscles, nerves, filaments, membranes, and all tissues of the internal organs.

PIPIFAX—Keeps the skin in a supple condition; the cuticle pliant; the pores open; and brings the blood to the surface; thereby enabling the system to counteract these baneful atmospheric influences.

PIPIFAX—Passes through the blood, carries off by perspiration and other excretions the effete and injurious materials of the body. It is soothng, alterative and deorative. Used methodically and rationally, aided by suitable diet, it produces most important changes in the system, contributing to the reconstruction of tissues, and removes vitiated matter which has become not only useless but injurious. No other article has ever been introduced which combines in such an extraordinary degree the principles of an efficient antiseptic agent and tonic. Try it and be convinced.
